TRUSSMASTER

Part of our lifting equipment range, the JCB Trussmaster is Q-fit compatible, enabling fast fitment and changeover.

- Jib base can be set at two positions: transportation and placing
- Transport position for safe and secure transport of roof trusses; the steadying yoke stabilizes the load
- Placing position gives best reach and lift height
- Supplied with bowshackle
- 6m length at full extension
- Removes the need and cost of crane hire
